

Asset Management > View Hardware > Details > Child Assets

From side bar menu navigate to Assets then click Hardware. This will show the hardware list. Click on the view link for the specific asset, this will open the specific asset details.

- Click on the "Child Assets" sub-tab. This tab allows you to see assets related to the current asset.

The screenshot shows the ACME Inc. Asset Management interface. The left sidebar contains a menu with options: Dashboard, Assets, Entitlements, Locations, Orders, Reports & Exporting, and Administration. The main content area displays the details for asset 887585B2265, which is a Juniper BFP3AM5GB. The 'Child Assets' tab is selected and highlighted with a red box. The right sidebar shows a map of the location and details for the asset.

- This will display any assets related to the selected asset. These could be components or associated devices.
 - Example: Power supply, network module, cables. These are examples of assets that might be listed as child assets.

The screenshot shows the ACME Inc. Asset Management interface. The left sidebar contains a menu with options: Dashboard, Assets, Entitlements, Locations, Orders, Reports & Exporting, and Administration.
