

Asset Management > View Hardware > Details> Product Information

Purpose: To view detailed information about the product.

- Once inside the Assets > View Hardware, click on view link for the concerned Asset. This will open new page where the "Product Information" tab provides even more information about the product.

Item Type

- Specifies the type of item, such as chassis, line card, cable, or standalone device.

Product Type

- Provides more information about the type of architecture.

Product Family

- The OEM-defined product family that belongs to this device.

Architecture and Sub-Architecture Group

- Helps in organizing devices. For example, a switch might belong to "enterprise switching" and "enterprise switch access."

End-of-Life Information

- Displays end-of-life dates, including:
 - End of Maintenance Attachment Date: When you can no longer add maintenance to a product.
 - Maintenance Renewal: When you can no longer renew a previously existing maintenance contract.
 - End of Security: When the device no longer receives security vulnerability fixes.
 - End of Software Availability Date: When the device stops getting other maintenance patches or fixes which are not security in nature.
 - End of Software Maintenance Date: When you stop getting patches or bug fixes on that particular product.
 - End of Support Date: When you can no longer call the OEM for support.
 - End of Life Notification Date: When the end-of-life notification was last posted.
 - Link to OEM Page: Direct link to the OEM page discussing the end-of-life information.
 - Notification Number: The notification number for searching purposes.
