Viewing Locations in a Group

1. Find the specific location group you want to examine.
2. Click the "View" button, usually represented by an eye icon, next to the desired location group. This will display the locations associated with that group.

The screenshot shows the ACME Inc. Groups page. A table lists location groups with columns: Client Name, RACS ID, Group Name, and Location Count. The 'SPARING LOCATION' group is highlighted, and its 'View' button is circled in red. The right sidebar shows the 'Add Group' form.

	Client Name	RACS ID	Group Name	Location Count
View	Virtucon	26643	UNITED STATES	6
View	Virtucon	26644	SPARE	1
View	Umbrella Corporation	31512	SOFTWARE	2
View	Virtucon	29015	CBE	1
View	Umbrella Corporation	32455	SPARE	1
View	Umbrella Corporation		Test QA_G01	0
View	Umbrella Corporation	31511	WIRELESS	1
View	Virtucon	22858	SPARING LOCATION	2
View	Umbrella Corporation	31479	DEFAULT GROUP	203
View	Virtucon	29048	OTHER PARTNER	1

A list of location labels and location names currently associated with the location group will appear. This allows you to see exactly which locations are part of the selected group.

The screenshot shows the ACME Inc. SPARING LOCATION page. A table lists locations with columns: Client Name, Label, Address Name, Address 1, Address 2, and City. The first location is highlighted, and its 'View' button is circled in red. The right sidebar shows the 'Add New Location' form.

	Client Name	Label	Address Name	Address 1	Address 2	City
View	Virtucon	Dallas - 673 Hansons Par...	Virtucon Inc	673 Hansons Parkway		Dallas
View	Virtucon	Boulder - 3645 MARINE ST	VIRTUCON	3645 MARINE ST		Boulder
