

Order Management > View Orders > Details > Assets

Assets Tab

To view assets generated as a result of placing the order – such as licenses or hardware – select the "Assets" tab, which is located adjacent to the "Details" tab withing the order view.

The Assets tab displays a list of all generated assets associated with the order. The key information displayed for each asset includes:

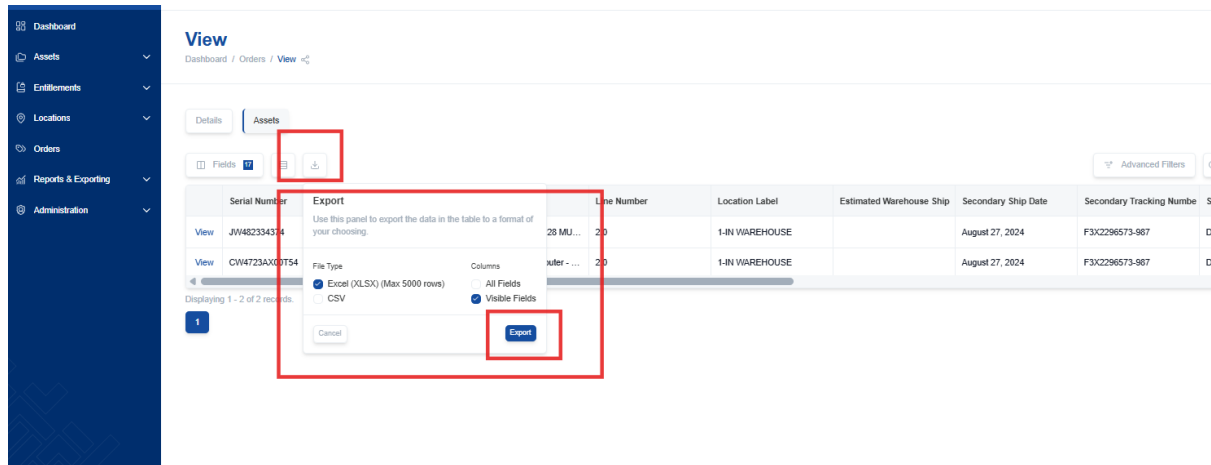

- Originating order and line number: Indicates the specific order and line where the asset information was sourced.
- Tracking information: Information for tracking the shipment or delivery of the asset.
- Shipping information: Details about the shipping address and shipping method used for the asset.

The screenshot shows the 'Assets' tab selected. A table of assets is displayed, with columns for Serial Number, Part Number, Description, Line Number, Location Label, Estimated Warehouse Ship, Secondary Ship Date, Secondary Tracking Number, and Secondary Carrier. The table contains two rows of data. A red box highlights the table area.

Serial Number	Part Number	Description	Line Number	Location Label	Estimated Warehouse Ship	Secondary Ship Date	Secondary Tracking Number	Secondary Carrier
JW4E234374	MPCTE-4R4TE-RBT	12 X QSPF-QSFP28 MU ...	2.8	1-IN WAREHOUSE		August 27, 2024	F3C2298573-867	Demo Carrier
CV4723AX00154	SRO32S-SYS-JBT	Juniper SRO32S Router ...	2.8	1-IN WAREHOUSE		August 27, 2024	F3C2298573-867	Demo Carrier

Exporting Asset Data

Export asset data to a CSV or Excel file using the export button located within the Assets tab.

Viewing Individual Assets

Click the "View" button next to a specific asset to access the asset listing and view detailed information about the asset. This will take you directly to the asset's individual page.
