Expanding/Collapsing Order Details

Use "View More" to expand the displayed order information and "View Less" to collapse it for a cleaner view.

Line Items

Explore the individual line items within the order to access detailed information about each asset or software license included. Line-item numbers are displayed to facilitate straightforward identification.

- You can access serial numbers and tracking numbers, if available, for each line item.
 - These numbers allow you to track the shipment and identify the specific product.
 - Click on serial/tracking numbers for more details about the specific item or shipment.
